## PRIVATE INSTRUCTION

Private lessons are for the person or couple who either have a very specific goal or a very short time to accomplish their required dances. Private sessions are necessary for the technical requirements of partnership dancing.

## SEMI-PRIVATE INSTRUCTION

Semi-Private lessons are available for up to 8 students and they allow for your choice of dance styles. Ideal for family, co-workers, couple, or friends who have a desire to learn how to dance in the company of people with whom they feel the most comfortable. They offer many of the benefits of private instruction at a more economical price, allowing a high degree of individual attention; and giving you a chance to interact with others at your skill level.

## GROUP INSTRUCTION

Group lessons are an important part of a dancer's learning process. It provides inexpensive repetition of the patterns and an opportunity to try out your leading and following skills.
